United States District Court
For The Southern District
of West Virginia
Beckley WV

Dorothy Ann O'Leary
Defendant (Pro se)

Case No. 506 CR 00098-02

vs
United States Title
18 U.S.C. 3582(C) 2 (and)
Motion To Correct Error
of Sentencing Calculation

Now Comes the Defendant, Dorothy Ann O'Leary (Pro se), respectfully moves this Honorable Court, to make the following correction on her sentence according to the retroactive amendment to U.S.S.C. § 2D1.1 of the Sentencing Guidelines to address disparity between crack and powder cocaine offenders.

The current calculated offense level is currently set at 31, with the change of the crack law ratio calculation of 18:1 the corrected guideline Range should have been 24 with a Criminal History Category I. This rightfully sets this defendant at 51-63 months prison term.

1. The defendant requests that the court make the needed calculation error corrections.

(2) The court recognize the correction and order an immediate release for this prisoner as she has currently spent 74 months incarcerated which is 11 months beyond the required term for this crime, U.S. v. Blewett, No 12-5226

Defendant further requests that this court
takes Judicial Notice of the following:

Kimbrough S.Ct, Wade v Chavez 6th Cir Current
Court Rulings and Order for the 18:1 Ration
Crack/Power disparity

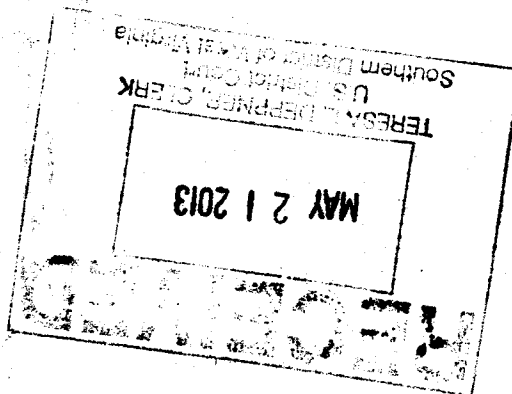

For a prompt response and all you have
done, this defendant sincerely Thank You
